Rotary
Mumbai SOBO

Dear Angel contributor,

Thank you for your support and generous contributions.

We, the Rotary Club of Mumbai SOBO, value and are very grateful for your support to the crowdfunding campaign done by concerned students from the Fazlani L'Academie Globale School, Mumbai to support amputees & those born with a congenital defect.

With the help of 93 donors, the students raised a massive amount of INR 5.65L transforming the lives of 125 amputees/ those born with a congenital defect by giving them a prosthetic arm or leg. This will create a massive impact on their lives. Prosthetics will help restore full mobility and help them lead an independent life. This will be truly transformational to the beneficiaries and their families.

Your generosity in supporting this initiative is greatly appreciated and the difference you have made to mankind is exemplary. The world is a better place thanks to people like you and we will ensure your contribution will make a direct impact on the lives.

We remain, in gratitude,

Rajiv Punater
