

YOUR GENEROSITY WILL IMPACT THE LIVES OF THOUSANDS OF UNDERPRIVILEGED STUDENTS.

Dear Funders,

We at All Care For Everyone Foundation would like to extend our sincere thanks to all of you who funded the crowdfunding campaign for the mobile library van done by the students of Bombay Scottish School, Powai on Fueladream.com. Your support will help thousands of underprivileged children studying in Municipal Schools across get access to a mobile library. This will definitely impact and transform their lives.

The van is ready (see images below) and will hit the road from end July in Mumbai.

At the moment we are in the process of partnering with Educo (a public charitable trust) for the underprivileged children in the neighboring community of Kalachowki, Sewri, Parel and Lalbaug in Mumbai that will benefit 1000+ children.

We plan to start the pilot run in July with The SSM Shivaji Vidyalaya School located at Parel. They have 3 different schools/segments in the same compound and they have ample parking space for the Mobile library van to do our trial runs.

The Mobile Library will have around 7000 Books and we also have a library in our office at Parel that holds approximately 3500 books, making a total of 10500 books with the Ace Book Club that can be read and circulated by students.

Below are a few pictures of our van which carries the books.

Our sincere gratitude to you the funders, the students who did the campaigns, the parents who encouraged their wards to do the campaign and the Principal, Vice Principal and teachers at BSS Powai who made this possible. Everytime a child reads a book and smiles it will be because of all of you.
